

YEAR 4
NUMERACY
TARGET GRIDS
SECURE DEEP

Mostly independent and cross curricular evidence needed

I can represent a puzzle or problem by identifying and recording the information or calculations needed to **persevere** and solve it; find possible solutions and confirm them in the context of the problem.

I can explore **fluently** patterns, properties and relationships and propose a general statement involving numbers or shapes; identify examples for which the statement is true or false.

I can solve **complex** one step and two step problems involving whole numbers and decimals and all four operations, choosing and using appropriate calculation strategies.

I can plan and pursue an enquiry; present and **justify** evidence by collecting, organising and interpreting information; suggest extensions to the enquiry.

I can explain reasoning using diagrams, graphs and text; refine ways of recording using images and symbols.

I can recall and apply my taught knowledge rapidly and accurately.

Number and Place
Value

Addition and
Subtraction

Multiplication and
Division

Measurements

Fractions
